COURT CARE

With the persistent winds, and some sudden warmer weather, our courts are dry & thirsty;
We need assistance from all players to ensure they are well maintained;
You **MUST** water well before play – from fence to fence (& not just between the lines);
Watering should also be done after each set or half-hour of hitting;
Please sprinkle before bagging after play too; that settles the dust & holds the en tout cas.
If the courts do not get enough water, the playing area will break up and holes will appear.
