

Your Competitive Player Profile (CCP) is the unique profile generated by connecting your Tennis ID and UTR (Universal Tennis Rating). With this connection established, your playing history and upcoming match data can be stored securely in one place, giving you full visibility of your tennis stats and performance.

All players competing in Australia are required to have a Competitive Player Profile established by 1 September 2023. Whether you play for fun at your local club, or professionally on the global circuit, your Competitive Player Profile will ensure you receive the best playing experience for your level.

To ensure you have the best tennis experience and all of your playing history in one unique profile, ensure you have completed your Competitive Player Profile (Step 1 below) and requested any merges for additional profiles (Step 2 below).

To view your completed profile head to Tennis Australia's Match Centre – Link on right hand side
