

# May 2022 NAMBAS TENNIS

Issue 6/2022

## Nambas News

I think I spoke to soon in April when I thought we were finally finding our groove. Not soon after our last newsletter, I don't know who ordered it but, it looks like we decided another rain spell was in order. So after many rainy days, cancelled fixtures and working bee postponed we are now days away from our winter season.

Lets try again shall we. Winter are our drier months, we tend to stay home at night and prefer to play during the day basking in the midday sun. Hopefully we can get some good sessions in over the next few months. It will be tough as we have several shows coming up which means bump in bump out period. I would like to thank again in advance Nambour Tennis club being open to us hiring their courts during these periods. If you are playing at Nambour courts during show periods and you see a tall, older man with snow white hair, his name is Rob and he is the president of the club. He has kindly offered us use of the courts. Hopefully we can repay him when he needs our assistance in the future. The exact dates and sessions are not known yet, but I am sure our secretary Jamie will send out a separate email.

We are half way through our year, so the next two pages you will see how our fixture teams are travelling. If you have some fixture pictures please send them through. Nambas Tennis Club is made up of social play and fixtures. We want to support you and would like to hear how your team is going.

Flowing on our from our fixture teams, we also like to hear from you. I would like to know if and how you want to contribute to our club. Committee is hard work and its not for everyone. I encourage you to come to one of our meetings before our next AGM and let us know what you want from our club. We would like you on board, but we need to work together how we are to do this. We may need to change a bit, but I am encouraging you to let us know your ideas, solutions and how this can work.
